

Amendments to the Drawings:

The drawings are objected to because Figure 1 contains six separate drawings, all six drawings are under the heading “Fig. 1”. The examiner recommends labeling each drawing with a different figure number (i.e., Figures 1a – 1f). Corrected drawing sheets are required in reply to the Office Action.

Figure 1 is a lateral view of the six different tower segments of the kit. Each tower segment in the replacement figure has been individually labeled as requested by the Examiner. The tower segments of Figure 1 have been relabeled as Figs. 1a – 1f. Applicants respectfully request removal of the objection to the drawings.
